

## **JUNIOR SALES ENGINEER – Ref. 2012JP262s**

### **About QualySense AG**

QualySense is an EMPA-based start-up company co-founded in 2010. QualySense aims to become the innovation leader in developing and marketing high-capacity sorting devices for quality and safety control of agricultural products. The unique and proprietary Swiss-made devices enable sorting grains, seeds and beans reliably by biochemical properties.

### **Job description**

The Junior Sales Engineer is able:

- To support the development and implementation of a systematic, strategic and targeted sales plan of activities to maximize sales across existing and new customers;
- To identify customers and create leads;
- To ensure all products are clearly defined in a consistent format which articulate the USPs;
- To ensure the offerings are supported by appropriate presentation and marketing collateral;
- To make effective presentations.

### **Qualifications**

#### Required and MUST-HAVE skills

- MS Degree in Food Processing, Food Engineering, Mechanical Engineering or in food related fields.
- 1+ years of experience in sales within the food/agri business.
- General knowledge of grains, seeds, and beans processing machinery.
- Superior influencing and persuasion skills with the ability to build and rebuild relationships.
- Willing to work in a highly dynamic, entrepreneurial and demanding start-up environment.
- Excellent analytical, communication, interpersonal, and documentation skills.
- Creative, innovative, organized, responsible, “can-do” attitude, and autonomous.
- Fluency in English and German.

#### Desired PLUS skills

- MS Degree in Food Processing, Food Engineering, or in food related fields.
- 3+ years of experience in sales of food machinery within the food/agri industry.
- Fluency in English, German and another European language.
